Docket No : 434299-699

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANT: Bruno Lebret

SERIAL NO.: 10/581,216 CONF. NO. 1772

FILING DATE: March 23, 2007

TITLE: USE OF SILOXANE-BASED POLYMERS OR COMPOSITES IN

CHEMICAL SENSORS FOR DETECTING NITRATE COMPOUNDS

EXAMINER: Weisz, David G.

ART UNIT: 1797

Commissioner for Patents P.O. Box 1450 Alexandria, VA 22313-1450

REQUEST TO CORRECT FILING RECEIPT

It is respectfully submitted that the Filing Receipt for the above-identified patent application has an error.

The word "SENSOR" is misspelled in the title of the application as "SENSOR" and the title should be corrected to read as follows:

"USE OF SILOXANE-BASED POLYMERS OR COMPOSITES IN CHEMICAL SENSORS FOR DETECTING NITRATE COMPOUNDS"

Please amend the Filing Receipt and appropriate records to reflect the correct title for the above-referenced patent application. Copies of the Declaration and Power of Attorney, first page of the specification and the postcard showing receipt of these documents as originally filed on May 30, 2006, with the correct title, are attached. Also attached is a copy of the Filing Receipt with the necessary correction indicated in red ink.

Í

Docket No.: 434299-699

No fee is believed to be due. However, the Commissioner is hereby authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-3557.

Respectfully submitted,

NIXON PEABODY LLP

USE OF SILOXANE-BASED POLYMERS OR COMPOSITES IN CHEMICAL SENSORS FOR DETECTING NITRO COMPOUNDS

DESCRIPTION

5 TECHNICAL FIELD

The present invention relates to the use of siloxane-based polymers or of composites comprising such a polymer and one or more electrically conductive fillers as sensitive materials in sensors for detecting nitro compounds, and in particular nitroaromatic compounds such as nitrobenzene (NB), dinitrobenzene (DNB), trinitrobenzene (TNB), nitrotoluene (NT), dinitrotoluene (DNT), 2,4,6-trinitrotoluene (TNT) and the like.

Such sensors are useful for detecting explosives, whether for the purpose of ensuring the safety of public places such as airports, for checking the legality of merchandise in circulation in a territory, for combating terrorism, for performing disarmament operations, for locating antipersonnel mines or for decontaminating industrial or military sites.

They are also useful for environmental protection, in particular for controlling and monitoring atmospheric pollution and the quality of more of less confined atmospheres, and also for the monitoring, for security purposes, of industrial sites that manufacture, store and/or handle nitro compounds.

Date Mailed: 05/03/2007

Receipt is acknowledged of this regular Patent Application. It will be considered in its order and you will be notified as to the results of the examination. Be sure to provide the U.S. APPLICATION NUMBER, FILING DATE, NAME OF APPLICANT, and TITLE OF INVENTION when inquiring about this application. Fees transmitted by check or draft are subject to collection. Please verify the accuracy of the data presented on this receipt. If an error Is noted on this Filling Receipt, please mail to the Commissioner for Patents P.O. Box 1450 Alexandria Va 22313-1450. Please provide a copy of this Filling Receipt with the changes noted thereon. If you received a "Notice to File Missing Parts" for this application, please submit any corrections to this Filling Receipt with your reply to the Notice. When the USPTO processes the reply to the Notice, the USPTO will generate another Filling Receipt Incorporating the requested corrections (if appropriate).

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filling of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process simplifies the filing of patent applications on the same invention in member countries, but does not result in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filling license. The application's filling receipt contains further information and guidance as to the status of applicant's license for foreign filling.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treatles and Foreign Patents") for more information on timeframes and deadlines for filling foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-788-9199, or it can be viewed on the USPTO website at http://www.uspto.gov/web/offices/pac/doc/general/index.html.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, http://www.stopfakes.gov. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hottine at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184

Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been cranted under 37 CFR 5.13 of 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the

subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and implements of War (CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign AssetsControl, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filling date of the application. If 6 months has lapsed from the filling date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
